

SOLEX 10 BEACON

for combination with alarm sirens

CHARACTERISTICS

- 10-60V DC
- Automatic synchronisation
- 5 different lens colours

FUNCTION

Sorex 10 is a flash light with a Xenon light source. It has a current surge suppression function to eliminate the need of big power supplies. Sorex 10 has automatic synchronisation and is supplied with 10-60V DC.

If higher protection than IP54 is needed, use the IP65 deep base SOCK-H-(colour*)-2KI.

The deep base SOCK-H-(colour*)-230V has a built-in voltage converter from 110-240V AC to 24V DC.

APPLICATION

SOLEX 10 is generally used for alarm installation, e.g. gas-, fire- or burglary alarm.
